

## TABLE OF CONTENTS

*Activities are listed in the order in which they appear in the Teacher Manual.  
 Reproducible materials are shown in italics.*

### INTRODUCTION

Introduction to the Challenge .....	vii
Overview Chart—Activities by Recommended Discipline .....	xx
Planning Chart .....	xxviii

### SET GOALS

Reading and Evaluating the Request for Proposals (RFP) .....	3
<i>Mobility Toys Inc. Request for Proposals</i> .....	7
<i>Evaluating the RFP Log Sheet</i> .....	9
Meeting an Industry Volunteer .....	11
Designing a Team Name, Logo, and Slogan .....	13
Using Design Logs .....	17
<i>Mobility Toys Inc. Design Log</i> .....	21
<i>Design Log (blank)</i> .....	23
<i>Design Log (pegboard frame)</i> .....	25
<i>Design Log (write-on lines)</i> .....	27
Identifying the Customers .....	29
<i>Identifying the Customers Log Sheet</i> .....	31
Seeing the Big Picture .....	33
<i>Seeing the Big Picture Log Sheet</i> .....	35
<i>Objectives and Criteria Log Sheet</i> .....	37
Creating a Design Checklist .....	39
<i>Checklist Log Sheet</i> .....	41

### BUILD KNOWLEDGE

Looking at Gears in Bicycles .....	43
<i>Questions About Bicycle Gears</i> .....	49
What We Know About Gears .....	51
Introducing the Gear Materials .....	55
Recording Gear Rotations .....	61
<i>Gear Rotation Recording Table</i> .....	65
<i>Gear Rotation Recording Table (blank)</i> .....	67
Developing the Gear Ratio Formula .....	69
<i>Gear Ratio Recording Table</i> .....	73
<i>Gear Ratio Recording Table (blank)</i> .....	75
Using the Gear Ratio Formula .....	77
<i>Gear Ratio Practice Sheet</i> .....	81
<i>Gear Ratio Practice Sheet (blank)</i> .....	83
Measurements and Ratios in Wheels and Gears (optional) .....	85
<i>Circle Measurement Recording     Table (blank)</i> .....	89
<i>Circle Measurement Recording Table     (sample data filled in)</i> .....	91
Adding a Motor and Wheels .....	93
Measuring Performance: Speed and Wheel Rim Force .....	99
<i>Performance Recording Table</i> .....	105

Compound Gear Trains .....	107	<b>FINALIZE THE MODEL</b> .....	209
Measuring Performance: Compound Gear Trains .....	113	Making a Body Mock-up .....	211
Multiplying Fractions to Calculate Gear Ratios .....	117	Constructing the Body .....	215
<i>Multiplying Fractions to Calculate Gear     Ratios Sheet</i> .....	123	Assembling, Testing, and Adjusting the Final Design .....	219
Measuring the Rim Forces of Individual Gears .....	125	Planning for the Proposal and the Presentation .....	221
<i>Measuring the Rim Force of Gears     Recording Table</i> .....	131	Preparing the Written Proposal .....	223
Torque and Lever Arms .....	133	<i>Types of Paragraphs Sheet</i> .....	227
<i>Torque and Calculation Table</i> .....	139	<i>Peer Evaluation Sheet</i> .....	229
What We've Learned About Gears .....	141	Writing a Resume (optional) .....	231
Exploring Body Materials .....	143	<i>Selecting and Organizing Information     for a Resume</i> .....	235
<i>Materials Testing Table</i> .....	147	<i>Model Resume</i> .....	237
Consumer Research: Conducting Interviews ...	149	<i>Resume Worksheet</i> .....	239
<i>Customer Interview Sheet: Child</i> .....	155	Preparing the Oral Presentation .....	241
<i>Customer Interview Sheet: Parent</i> .....	157	<i>Oral Presentation Outline</i> .....	243
Consumer Research: Conducting a Survey .....	159	<i>Presentation Roles Worksheet</i> .....	245
<i>Customer Survey Sheet: Parent</i> .....	163	<i>Individual Presentation Skills     Evaluation Sheet</i> .....	247
<i>Customer Survey Sheet: Child</i> .....	165	<b>PRESENT</b> .....	249
Consumer Research: What We've Learned About the Consumers .....	167	The Final Presentations .....	251
<i>Sample Data Analysis Table</i> .....	173	<i>Sample Letter to Review     Panel Volunteers</i> .....	255
<i>What Have We Learned About the     Customers? Sheet</i> .....	175	Reflecting on the Engineering Design Experience .....	257
<b>DESIGN</b> .....	177	<b>APPENDICES</b> .....	259
Integrating and Applying What We Know .....	179	Contacting Volunteers .....	261
Writing a Design Brief .....	181	<i>Sample Letter to Potential Volunteers</i> .....	264
Designing a Gear Train for the Prototype .....	185	<i>Mobility Toys Inc. Request     for Proposals</i> .....	265
Drawing Body Designs .....	187	Gears, Torque, and Performance .....	267
<b>BUILD AND TEST</b> .....	193	Designing a Gear Train for the Prototype: Using Calculations .....	277
Building a Prototype .....	195	<i>Designing a Gear Train for the Prototype:     Using Calculations Log Sheet</i> .....	285
Performance Testing the Prototype .....	197	Assessment .....	287
Interpreting Performance Test Data .....	199	<i>Basic Understanding of Gears</i> .....	293
Redesigning the Prototype .....	201	<i>Design Log Assessment</i> .....	297
Focus Group Testing of Body Designs (optional) .....	203	<i>Design Log (Sunnyside Toy Co.)</i> .....	299
		<i>Design Log (Wild West Toys, Inc.)</i> .....	301
		Resources .....	303
